

LETTER FROM A MEMBER OF SAN ANTONIO A. A.

TO THE CENTRAL OFFICE OF SAN ANTONIO:

It is my sincere and humble opinion that whatever is helpful and beneficial to the A. A. Central Office of San Antonio is also of direct benefit to each individual A. A. member and prospective members. Also, I greatly appreciate the fine work you are doing on a job that needs to be done now -- helping other AAs and groups of AAs in their formative stage, as well as myself.

Therefore, as a selfish desire on my part, plus a feeling of responsibility to A. A., I want to make a voluntary pledge for the year of 1951 of a minimum amount of \$ _____ each month and am enclosing a check for the first month.

No group of any kind -- fraternal, business, domestic or A. A. -- can function at its best without a budget and definite knowledge that funds will be available from voluntary pledges to carry its program. I have talked to others who also think that voluntary pledges, which can be reduced if desired by the person making the pledge, would solve our financial problems.

To me voluntary pledges certainly would add dignity and financial security to the A. A. program in San Antonio.

Wishing you much success in carrying out the A. A. program and offering whatever help I may give to you in your rather difficult problems, I am

Sincerely yours

(Signed) A Member
