We have information about a 900-site camp on Montreal's outskirts which does not take advance reservations.

And a "Sober Sailors" cruise to the International Convention from New York City includes hotel rooms as part of its package; call 818/342-1215 for cruise details.

AM I REALLY AN ALCOHOLIC?

Now and then a fleeting thought floats through my mind, a cunning, sneaky thought that maybe -- just maybe -- I'm not an alcoholic. That all this hullabaloo and repetition has fooled me into believing I am sick when I'm really okay. Maybe I've just talked myself into it.

Maybe I can drink again -- socially, of course. Just a couple of cocktails before dinner or a glass or two of light wine wouldn't hurt. I could probably handle it.

But is it worth taking a chance? How can I find out without taking a chance?

I checked around and found in the Big Book and from some "old-timers" that I could ask myself three questions -- and get the answer.

First, I was told to ask myself if I was able to stop drinking when I wanted to or did I usually keep drinking until I was drunk? Yes or no.

Then, I was to ask if drinking caused any problems in my life with health, job, family finances or with the law. Yes or no.

Last, when I drank, did my personality undergo a drastic change such as becoming belligerent, demanding, loud, obscene, or overly amorous? Yes or no.

In my case, I had to honestly admit the three answers were all yes which clearly qualified me for top-notch alcoholic.

Just saying "I am an alcoholic" is not enough for me -- I have to think it through and remember how I was when I drank. I need to remember how I was, what happened and how I am now.

The contrast is startling. It convinces me that I have the illness of alcoholism but I have recovered!

And I am glad ---

CENTRAL SERVICE OFFICE COMMITTEE (GSR) MEETING
MINUTES CLUB 12 FEB. 17TH

Jim A., new chairman, opened the meeting with the Serenity Prayer.

New GSRs introduced themselves: Limon, 24-Hour Group; Tom S., alternate GSR for Group 12; Yolanda F., Santa Fe Group.

Jim D. of the CSO Administrative Board announced a vacancy for the position of finance chairman since Jack E. has moved. An AA member trained in accounting is needed for the volunteer position. Jim said the office was \$2,379 in the red last month due to building up of literature inventory, paying the yearly copy machine maintenance contract, and paying two months' rent in the same month.

Jim D. added that group contributions are down and he encouraged all groups to follow the 60-30-10 plan.

Sylvia O., hospital and institutions chairman, announced that Raleigh Hills has decided to take care of its own meetings. The hospital was removed from the H & I list.

Don S., penal chairman, said that 10 people in San Antonio have just received clearance to take AA meetings to prisons, 4 men and 6 women. Steve H. has taken a meeting to a prison unit, and Donna T. and Lori K. accompanied penal co-chairman Carolyn P. on a visit to Mountain View Unit.

Jim B. discussed plans for a proposed meeting for probationers. The advantages of having probationers all attend the same meeting were presented. A meeting place is needed.

Danna G. announced that he had given a talk at the Oblate School of Theology in the absence of public information chairman Bob W.

Janis H., Nightcap editor, needs help with the Nightcap. She says both contributions of material and help getting the newsletter out are needed. Al M., mailing chairman, had no report.

Danna G. distributed 15 tickets to each GSR present for the 40th Anniversary of AA in San Antonio, which will be April 13. (Anniversary discussed elsewhere in the Nightcap.)

Janis reminded everyone that March 1 is the deadline for the flight to Montreal for the International Convention set for July 3-7.

Roland R. has resigned as chairman of the CSOC Committee (GSR meeting.) Jim A., who was elected co-chairman, now becomes chairman. A new board member will be elected in March from the list of nominees presented by the nominating committee in November.

Jim D. explained problems Central Service Office is having with the landlord's renovation plan. The CSO's lease runs to August 1986. The owner started renovating the building without consulting us. Part of his plan is to reduce the size of the office we are leasing and to remodel while we are trying to use the office. The administrative board had a lawyer send a letter to the landlord saying that we do not want him to do this.

An inventory of literature at CSO is planned. Volunteers are needed to help.

Janis described how the newly published meeting directory is greatly improved and said she had copies on hand for GSRs to take to their groups.

SMIDGENS

BY ROBERT CORDRAY

NOT QUITE WELL YET?

I have a friend in AA who, despite several years of sobriety, refers to herself as not quite well yet. I have other friends who refer to themselves as "sick alcoholics." Many of them with several years sobriety. I question that thought. In fact, I more than question it, I refuse to believe it of myself.

The very first sentence of the FORWARD TO THE FIRST EDITION of the Big Book Alcoholics Anonymous reads:

"We, of Alcoholics Anonymous, are more than one hundred men and women who have RECOVERED from a seemingly hopeless state of mind and body." It does not say, "We are sick people trying to get well." It says --- "WE HAVE RECOVERED."

This very first sentence jumped out at me when I first read the Big Book. There was hope! I had thought that I was doomed to a life of depression, disaster, and drunkenness. Yet here was a group of people who had been suffering in the same way that I was suffering. They, however, had recovered and were living normal, happy and useful lives.

During my first year of sobriety I did not really work the Steps and I began to refer to myself as a sick alcoholic. I was sick during that first year.

The Big Book uses an analogy that compares us to survivors from a shipwreck who have found safety in a lifeboat. I found myself clinging to the side of the lifeboat during the first year. Several people tried to persuade me to make the effort required to climb into the boat. They kept suggesting that I do the Steps. But I refused to listen. After all, I was not drinking and I felt relatively happy. I was told that my position was very precarious but I just could not or would not understand. When you are clinging to the outside of a lifeboat, all it takes is one good wave, or maybe you just get tired of hanging on. A week after my first AA birthday, I knew I was in terrible danger. The old depression had returned. The sense of worthlessness was back. My future looked bleak and hopeless. The breaking up of a relationship had caused all this.

I had two alternatives. I could get drunk or I could do the Steps. I knew that drinking was no good for me. So I chose to do the Steps, since I knew so many people in AA who had recovered that way.

I was surprised how really easy doing the Steps was. Once I had made the decision by doing the Third Step, I was able to complete the others in about one month. That is, I completed them to the best of my ability. Many of the Steps, once taken, require daily work.

So I'm in the lifeboat now. I've recovered. Now the real work begins. For you see, the lifeboat is just the vehicle that conveys us to shore and we must all work together to reach that shore. But as long as we do and as long as we stay in the boat, we are safe -- we have recovered.

In the Third Step Prayer, we ask God to "take away my difficulties, that victory over them might bear witness to those I would help of Thy power, Thy love, and Thy way of life."

If we say "I'm not quite well yet," what kind of a witness are we being? If we feel that we are still sick, perhaps we need to re-evaluate our personal program. The program works if you let it. There are too many of us who have RECOVERED through working the program for it to be any other way.

The next time you find yourself saying, or even thinking, "I'm not quite well yet," get back to basics. Talk to your sponsor, attend more meetings, and work the Steps.

God and AA can't fail us, but we can fail God and AA by not working our program, by being complacent, and by accepting "half well" as good enough. When we do that, we cheat ourselves.

--- Bick E.

CHURCH VS. AA
